BILL NUMBER: SB 19

DATE PREPARED: Mar 6, 2001

BILL AMENDED: Mar 6, 2001

SUBJECT: First Steps Sliding Fee Scale.

FISCAL ANALYST: Kathy Norris

PHONE NUMBER: 234-1360

FUNDS AFFECTED: X **GENERAL**
DEDICATED
FEDERAL

IMPACT: State

Summary of Legislation: (Amended) This bill requires the Division of Family and Children to adopt rules to implement a cost participation plan for early intervention services provided under the infants and toddlers with disabilities program (commonly referred to as the First Steps Program). The bill specifies elements that must be included in the cost participation plan. It allows the Division of Family and Children to adopt rules to provide that a service provider who determines the amount of services needed by a child participating in First Steps may not provide those services unless there is a lack of other qualified service providers in the area.

Effective Date: (Amended) July 1, 2002.

Explanation of State Expenditures: (Revised) The Division will require some administrative resources to implement the required sliding fee scale. The Family and Social Services Administration has estimated that the start-up and operating costs to be approximately \$170,000 in FY 2002; annual operating costs are estimated to be \$134,000 for FY 2003. The cost of rules promulgation should be able to be absorbed within the Division's current level of appropriations.

Explanation of State Revenues: (Revised) This bill specifies that the sliding fee scale may not impose fees or charges to eligible individuals whose family income is less than 350% of the Federal Income Poverty Level. This standard equates to gross income of \$40,635 for a family of two and \$61,775 for a family of four. Additional individuals are factored in at \$10,570 each. The bill also requires that the cost participation plan must provide for sudden adjustments in a family's income and allow for the waiver of required copayments if other medical expenses reduce the level of income the family has available to make copayments.

The Family and Social Services Administration reports that there are 9,756 total families participating in the First Steps Program. Of the total participating, 3,289 (or 33.7%) have income at or above 250% of the Federal Income poverty Level. It is not known at this time the number of participating families that have

income at or above the 350% level. The Division has reported that over 200 families receiving First Steps services are at or above 800% of the Federal Poverty Guidelines, (an annual gross income of \$141,200 for a family of four).
